Congratulations! You have purchased another fine Sinclair product. Please take a couple of minutes to read the following instructions prior to using your new Sinclair product.

INSTRUCTIONS FOR USE

- 1) Push rear takedown pin out of the hole in the upper assembly. The upper and lower assemblies are then only connected by the forward pivot pin.
- 2) Insert the stainless steel pin on the Sinclair Link into the rear takedown pin hole located in the upper assembly.
- 3) Pivot the upper assembly back towards the lower assembly until the takedown pin in the lower assembly can be inserted into the hole in the Sinclair Link.
- 4) The upper and lower receivers are then locked in a separated position allowing free access to the bore and action area for cleaning.
